ress Charges Collect.

All plants sold by us are grown in our own greenhouses, and are guaranteed clean and healthy. We carry on a large Hybridizing program all the time to give you new varieties.

Please, do not order varieties not listed on this list. All 2 $\frac{1}{4}$ " stock is for growing on and not necessarily in bloom. 3" stock is budded or blooming, ready for immediate resale.

Do not order less than 25 pots, and not less than 5 of a kind to the box of 25. We cannot mix pot sizes in the box. Your check or Money Order must accompany all orders.

When ordering, be sure to list a second choice, or a refund in the event we are out of a variety. Otherwise we will substitute with a like variety to fill the order.

We do our utmost to grow fine quality plants and pack them very carefully, according to Express regulations, so they will reach you in good condition. However we have no control over the handling of them after they have been turned over to the carrier. If your order reaches you in a damaged condition, notify your Express Office at once and file a claim with them for adjustment, not us. Then notify us that you did file a claim.

We find it most advisable for the Dealer to drive in for their plants when it is at all possible, thus avoiding any possibility of loss to you.

We also find that when a Patron uses the Protective Signature service, at a small additional cost, it does help a great deal towards less damage. Please state on the order if you wish this service. Also list your phone number on all orders.

We ship the year around, using a Fibreglas lining in the cold Winter months to avoid the possibility of freezing.

Our aim is to build our list of satisfied customers above all else. If you have a just complaint, won't you drop us a line, and we will do our best to correct the situation. We thank you for your patronage and wish you success.
